</tbody>
</table>

Due to the training the trains were able to earn their livelihood. They raised their status as a result of training and they have not a depend on others.

**CONFERENCE/WORKSHOP/SEMINAR/AWARENESS CAMP:**
To aware and draw attention of the community, seminars has always played an important role. That is why this organization regularly organizes such type of seminars to mobilize the public opinion against social evils and to reorient the existing institutions and organization in order to protect the interests of needy, deprived and the poor. Organized at Dhanbad, Bokaro, Jamtara districts of Jharkhand state.

During this financial year (2010-11), seminar have been organized:

**CONSUMER AWARENESS PROGRAMME:**
The women being our first and foremost target groups, we are quite aware of the fact that they are affected most by incidence of consumer creating and misleading. As such we have been creating awareness among them regarding the rights and duties of consumer and the various legal and procedural protection offered to consumer courts. It has been a part of our regular awareness generation programme.
**HIV/AIDS/STDs PREVENTION AWARENESS PROGRAMME:**
With the passage of every year, the menace of HIV/AIDS is slowly looming larger on the national health horizon. With a large number of migrant population and a greater number of persons indulging in unsafe sexual and blood transfusion practices, Jharkhand who is now c
\neck-deep in the trouble. SLPK has been one of the pioneering NGOs of Dhanbad contributed their mite to wage a war against the ignorance and unawareness that helps the transmission of the HIV with the initial technical and financial assistance coming from JSACS Ranchi.

Now, deeply involved in the RCH issues, HIV/AIDS along with the STDs have, all along, formed a core theme of all our interventions in this direction and we have made it a point to arm all our target groups with the awareness to fight against the dreaded disease.

**CANCER AWARENESS CAMPAIGN:**
Cancer is another disease, which is spreading fast in rural and urban areas alike. Among our rural poor women target groups, we always come across many cases of cancer of breasts and cervix. As such, we have taken up the awareness campaign among our women target group, in particular, to provide them with a behavior change communication and prevent the occurrence of the disease.

**T. B. TREATMENT ACTIVITIES:**
T.B. is yet another disease, which is spreading fast in the rural area and, in most of the cases, varying degrees of drug resistance have been developed. It is therefore, additionally imperative that the menace is nipped in the bud and the sooner, the better. As such, we have included the theme in our general awareness programme and have helped deflect a large number of T.B. cases, ensuring their treatment with a regular intake of drugs.

**PANCHAYATI RAJ INSTITUTIONS:**
Panchayati elections were held in Jharkhand after a gap of 25 years and it is going to be held in Jharkhand. It was expected that Panchayat will bring prosperity in villages and there will be lot of autonomy at village level. But even after the elections ad condition is moreover same. The reason is improper participation of villagers. Unless villagers take part in Gram Shabha, it will be very difficult to converse the gram swaraj into reality. And PRIs work effectively them major hurdle of development will be over and it will provide lot of options and opportunities for poor and un-addressed community.

**ANIMAL WELFARE PROG.**
In this financial year society organized for welfare of Animal. Activities are taken related to this activity i.e.

- **Particulars**
  - Sterilization of Street Dog.
  - Seminar on health are of animal.
  - Health Camp on Animal.
**CHILD LABOUR PROGRAMME:**
Under our different projects, we have always adopted a policy of holistic interventions rather than working on a single track agenda. The child labour has always been one such issue whereupon we have been equally active. We have included the issue under our general awareness generation programme and we have caused extrication of many a child labour from the drudgery, helping them with enrolment in schools.

**BOOK PROMOTION:**
Society promotes the local writer book through own sources. Our society distributed these books into different library and other professional. More than 15 books promote by our society in this financial year.

**HEALTH & FAMILY WELFARE:**
Promotion of small family norms and population control by encouraging spacing methods and sterilization. Awareness camps held to educates the people of the observance of small family norms. Through the motivation by out staff. People were advised to adopt any method suited to them for small family norms. The population is day by day increasing and it is a problem to the country. Whatever progress has been achieved during post independence the same consumed by the cast population and the country is not making much bead way, people is gathered in large numbers and listened minutely regarding the effects of small family our organization helped in free distribution of medicines as shown below :-

Programme
(a) Distribution of oral pills
(b) Condom
(c) I.U.P.
(d) M.T.P.

**LITERACY PROGRAMME:**
Our organization is running educational activities for the needy population and heavy concession have been given to the poorer sections. The following programme were organized.

Whenever on is involved with the rural poor women and child target groups, literacy has not to come in. Right now we are working with about 3000 rural poor women in reproductive age group along with 3000 adolescent girls from the same community most of whom either were illiterate or school dropout and thus, were in need of some literacy training.

**WELFARE PROGRAMME FOR SCS/STS & HANDICAPPED**
We have always taken care to reach the benefits of our interventions to the neediest of the needy persons directly. As such, the deprived and disadvantage sections of the society as SCs/STs and handicapped do always find a place of prominence in our beneficiary-list. Most of our beneficiaries hail from the SCs. And in our entire programme we do reach benefit to the handicapped persons on a priority basis.
However, we wish to implement more programmes and projects for our STs and some specific interventions for our handicapped target groups.

**RCH PROGRAMME**

The women’s empowerment as well as the reproductive and the child health has, all along, been at the cent restage of Shree Laljee Prashikshan Kendra activities, wherein we have continuously been adding to our experiences and expertise through innovative and action oriented interventions.

We have already got a meticulous plan to implement to programme in the coming months of the next year.

**EYE CAMP ACTIVITIES**

Help Age India has been kind enough to support this organization to organize eye camps where screening of, and cataract operations on, the needy elderly persons are being performed for last ten years. In the reporting year this organization has conducted 3 eye camps, one each Dhanbad District.

A total of 154 persons were screened for their eye-ailments and 24 patients were admitted in the camp wherefrom they came under total charge of the camp their food, the camp supplied milk, medicines and other essentialities. The regular change of eye dressings and careful supervisions by ophthalmic surgeons gave them moral strength and exceptionally good results.

In each of the three camps, the patients stayed for six days and, on the seventh day they were discharged and allowed to go home with medicines for two months and a pair of spectacles to their delight that they could see this beautiful world once again.

**FORMATION OF SHG:**

20 men and 65 women group are formed in this financial year. And training given to group leader and team leader for run this group in future. Some beneficiaries benefited through local public in terms of loan and within this year total amount are repaid. A team of worker regularly works under formation of group and run of group.

Self-help group will be formed the group will work for rapid implementation of all programmes of your organisation. They will collect of necessary data & information for your organisation. They will also raise fund for themselves and society.

Education & employment generation programme for inmates in Jail- A series of programme will be conducted for education & employment generation programmes for immolates in Jail necessary permission will be, obtained form govt.

**DRUG-DE-ADDICTION**

A counseling cum assistance center run by orgnaisation for drug addict people and youth. In present time some youth used Gutakha, Charas, Cigarette, Ganga etc. in regular way. More than five to six visitor visit to this center daily and free of cost treatment given by the society. Some doctor supported to the society in this regards and other RMP, Homeopathy and other alternative medicine practices nor also support to orgnaisation and beneficiaries in this matter.
Your organisation is also participating in the national movement of drug-deaddiction. A workshop has been organised for preparing problems of a presenter deaddiction. Posters and banners has be distributed for de-addiction movement painting, creative Arts, dance, Drama, creation- A special drive will be painting, creativity, dance & drama. Presently your organisation is setting a group for drama and street show. This mill help in all awareness programmes.

SURVEY & DOCUMENTATION:
During the year different types of survey of the area were carried out for future implementation of programme. The specific survey carried out were drinking water scarcity, marginal / small farmers status, leprosy patient, handicapped etc.

Survey on socio economic and educational status of the people of block and district was conducted by this organization. It was done for the purpose implement development educational for the development of rural poor populace; seven villages of the district were covered.

SCIENCE & TECHNOLOGY DEVELOPMENT
With the view to create scientific temper in the public’s mind massive campaigning was undertaken. Under this programme 20 villages of the block were covered. Also the farmers of they are awarded about the advanced agriculture technique.

ADOLESCENT GIRL
Adolescent girls are the basis of our future healthy society. Domestic Violence against women is highest in India. The reasons are women are not aware about their right and health related problems. We have formed clubs of adolescent girls in 5 villages and make them aware about their right and physical changes. We also try to impart sex education so that they can become responsible educated mother and help in building up healthy society. Secondly the major burning issues are female child infanticide in the society that is due to the dowry problems. We visualize that if women are empowered and aware the problems can be reduced to a great extent.

NETWORKING OF NGOS
No NGO is strong and resourceful enough to work in isolation. It has got to be a concerted effort by plurality of change agents. A such, we have played and instrumental role in forming a network of NGOs in Bokaro and Dhanbad district to put in joint efforts, wherever and wherever possible, to bring about some tangible result as change agents.

RURAL DEVELOPMENT PROGRAMME
The organization executed different rural development works with the help of the NABARD under Village Development Programme such its repairs of village roads, repairs and cleaning of village drains and cleaning and chlorinating of drinking water wells was done by the social workers, students, members and local people. The organization has proposed to do some other major development work in villages. Government agencies are being contracted to collaborate. The members, social
workers, staff are carrying sanitation work and the local people on the occasion of festival organized every year.

**REHABILITATION OF HANDICAPPED**

Under this programme some useful survey pertaining to handicapped of the area. A camp was also organized in which people were made aware about the government existing facilities and other agencies operative for the benefit of the handicapped. Also people were educated to have sympathetic attitude towards handicapped.

**HORTICULTURE AND AGRICULTURE AND PLANTATION PROGRAMME**

To raise the economic status of the people living within the poverty line,. Horticulture was given due importance in that 3 fruit plant were distributed to each family numbering 120 families of district. Large numbers of gathering of local people and they were eager to receive the plants and plant them in their own field. The gathering was so strong that it took nearly 4 house for the process of distribution plants. The scheme become very popular. It such scheme is against brought after reasonable interval, this is definitely going to change the shape of district and in center will be assets to the people.

Every today tier lands where no cultivation work undertake as these are unprotect ion and expensive. People were advised to make use of such lands by applying manners, refection of rain waters, removal of soil to the except of 4” below from the level of land and raising the boundaries from all sides to preserve the rains water to upgrade the land fertility. Training were important in the seminars as to how neglected land some sort of income will accrue to the agriculture. A five days training to twenty farmers was organized in the village. In this training, farmers were trained to do farming by new and scientific methods. Experts from different agriculture universities were invited.

Effective programme for energy development was chalked out in village. Solar energy, wind energy and other kinds of energy and its devices for application in human life were also discussed. Construction of smokeless stove (unnat Chullah) was discussed and demonstrated.

**TRIBALS DEVELOPMENT PROGRAMME**

Were literacy in the pattern of Non-Formal Education to the tribal children and other illiterate section, income generation through various possible and plausible means for women folks and general health and Family Welfare. Our focus had been on socially and economically downtrodden STs and we were anxiously busy in filling the gap to bring about perceptible changes in the situation.

Under the scheme, Shree Laljee Prashikshan Kendra had identified 16 such villages in Dhanbad were Balwadi Centres had been established and all their requirements had been met. The provisions included slates, basic and primary books, exercise
books, blackhead pencils, hanging black boards, chalks etc; arrangements of a suitable place for the class room and that of a willing and competent male teacher, belonging to the same section of the tribal folk. The classes are still running smoothly. Simultaneously, the group formation of the eligible women for their micro economic activities for income generation and village – wise group meetings for awareness generation on health and family welfare are regularly done. The work on the project had been launched on 20th December, 1999, and through, the assistance ended with December, 2000 the core activities are continuing in a sustainable way.

**NON CONVENTIONAL ENERGY SOURCES AWARENESS**

While working with our women target groups in rural areas we have, in particulars, been pained to see the inconveniences caused to the rural community for lack of energy sources. Electricity here is as good as non-existent. As such, we have made it a point to promote the use of non-energy sources advising people to use solar energy appliances, the smokeless chulhas and the bio-gas plants, through with a limited success as these are not available for the rural poor target groups in adequate numbers/affordable costs.

**AUDITORS**

M/s. Sanjeev Bats & Co. Chartered Accountants is the auditor of society in this financial year and if passed in general body meeting next year re-appointed the auditor of the society.

**SECRETARY**
